Demolition/Asbestos Removal: Call (727) 464-4422

***** A written asbestos survey is required before demolition or renovation of a building. A written notification form must be mailed or delivered to the Pinellas County Air Quality Division ten (10) working days before any demolition. If asbestos is identified in the asbestos survey, it must be removed in accordance with all Federal, State and County Regulations.*****

Owner's Affidavit: I certify that I possess all the necessary property rights at the location where the work will be performed and that no conflicting rights exist. I certify that all the foregoing information is accurate and that all work will be done in compliance with all applicable laws regulating construction and zoning.

Warning to Owner: Your failure to record a notice of commencement may result in your paying twice for improvements to your property. A notice of commencement must be recorded and posted on the job site before the first inspection. If you intend to obtain financing, consult with your lender or an attorney before commencing work or recording your notice of commencement.

Application is hereby made to obtain a permit to do the work and installations as indicated. I certify that no work or installation has commenced prior to the issuance of a permit and that all work will be performed to meet the standards of all laws regulating construction in this jurisdiction. I understand that a separate permit must be secured for ELECTRICAL WORK, PLUMBING, SIGNS, WELLS, POOLS, FURNACES, BOILERS, HEATERS, TANKS AND AIR CONDITIONERS, etc.
