

City of Safety Harbor Tree Program Spring 2022

The City of Safety Harbor is continuing the annual shade tree planting program. Free shade trees will be planted in applicant's front yards; providing shade and helping to beautify our neighborhoods and city. Once established, all provided shade trees are drought tolerant. Applicants are responsible for watering the trees during the establishment period. Staff will finalize the location, based on tree rooting area and the avoidance of utilities.

Application deadline: February 15, 2022
